NOESIS

Unite security across your business - networks, apps, users, data, even IoT.
With keen sight, detect and foil existing and emerging threatsswiftly.
Prevent losses detect and counter cyberattacks promptly.

Explore the cybersecurity roadmap and stay secure!

Building Security Into Your Organization

Intelligent Threat Detection and Response

- Self-learning AI swiftly stops cyber-attacks, including ransomware and phishing
- Detects, investigates, and responds to emerging threats instantly
- Safeguards cloud environments from unprecedented cyber threats

Key technologies

DARKTRACE

Extended Detection and Response (XDR)

- It detects and responds to threats across endpoints, networks, and applications
- Unifies data from multiple security tools
- It improves visibility and simplifies threat management

Key technologies

paloalto NETWORKS · CROWDSTRIKE · Microsoft · CHECK POINT · MORPHISEC

AI-driven Data Security & Governance

- Leverages AI to protect sensitive data and ensure compliance with regulations
- It automates threat detection, risk management, and policy enforcement
- By enhancing visibility and control, AI helps organizations mitigate risks and maintain data integrity

Key technologies

paloalto NETWORKS · opentext · DELL · VARONIS · zscaler · sealpath

Application Security Testing

- Application Security Testing (AST)
- Enhances application resilience against security threats
- Identifies vulnerabilities in source code throughout its lifecycle

Key technologies

Red Hat · VERACODE · opentext

Network Security / Zero Trust

- Securing all physical and logical devices
- Applying Zero Trust principles
- Essential for countering network threats like worms, viruses, and hackers

Key technologies

paloalto NETWORKS · zscaler · FORTINET · netskope · HPE aruba networking · CHECK POINT

Identity Management

- Identity management ensures the right people access the right resources
- It verifies user identities and controls permissions
- Cover service, app, root, and priviledge accounts across the organization

Key technologies

okta · Saviynt · Delinea · Microsoft · IBM · Venafi

Vulnerability Management / Penetration Test

- It identifies and assesses security weaknesses
- It prioritizes risks and applies fixes to reduce exposure
- Mitigate inappropriate and risky access

Key technologies

tenable · DARKTRACE

Security Operations Center (SOC)

- SOC covers prevention, detection, investigation, and response to threats
- It offers continuous 24/7 monitoring for cyber threats
- The SOC ensures continuous protection and minimizes risks

Key technologies

securonix · Microsoft · opentext · FORTINET · paloalto NETWORKS · CROWDSTRIKE

IT Operations & Infrastructure

Managed Services

- IT Operations
- Service Desk
- Systems and Platforms Administration
- Cloud Administration
- Security Managed Services
- Desktop Management

Data Center

- Storage & Archiving
- Data Resilience
- Operations Data Center
- Network Data Center
- Hybrid Solutions

Service Management

- Observability
- IT Automation
- IT Service Management
- Asset Visibility

Cloud, Security & End-User Services

Cloud Services

- IT Transformation
- Strategy, Architecture & Design
- Integration and Workloads Migration
- Cloud Management Solutions
- FinOps

Security & Compliance

- E-mail Protection
- Intelligent Threat Detection and Response
- Security Managed Services (SOC / MXDR)
- Extended Detection & Response (XDR)
- Network Security / ZTNA
- Identity Management
- Vulnerability Management
- Data Security, Governance & Awareness
- Application Security Testing

End-user Support

- Productivity solutions (M365)
- Endpoint management solution
- Device as a Service (DaaS)
- Virtual Desktops Infrastructure (VDI)

Case Studies

- TELECOM, MEDIA & TECHNOLOGY
- FINANCE & INSURANCE
- SERVICES & INDUSTRY
- HEALTHCARE & PHARMA
- CONSUMER PRODUCTS, RETAIL & DISTRIBUTION
- ENERGY & UTILITIES
- PUBLIC & NON-PROFIT

Strategic Partners

HPE, Dell, VMware by Broadcom, Veeam, IBM, Microsoft, Red Hat, opentext, servicenow, Atlassian, Datadog, dynatrace, aws, paloalto networks, CrowdStrike, zscaler, Fortinet, Saviynt, Microsoft Azure, netskope, Delinea, tenable, Darktrace, HPE aruba networking

PRO TIP!

Do not rush, plan and prioritize security investments
